## Playing our part for Sustainability

Smarter Packaging.  
Lighter Environmental Impact.

Brother continues to advance sustainability through engineering innovation. Brother's new printer series features EPS-free, recyclable packaging engineered for reliable protection and logistics efficiency.

Engineered with advanced design and simulation technology, this EPS-free packaging delivers reliable protection, shock absorption, and stability during transport using lightweight, recyclable materials without compromising quality.

### What is EPS-free Packaging?

Brother traditionally used Expanded polystyrene (EPS) to cushion products during transport. While proven effective, EPS is difficult to recycle and often ends up in landfill.

As part of Brother's sustainable design approach, EPS has been removed and replaced with paper-based, recyclable molded pulp and cardboard made from recycled fibers which helps reduce plastic use while maintaining strong, reliable product protection.

Stronger, Recyclable, and Environmentally Responsible packaging

#### Easier Recycling

All packaging components can be disposed of through paper recycling streams.

#### Cleaner Unboxing

No crumbling foam or plastic fragments and just paper-based materials.

#### Easy Handling

No special handling required. Saves space during transport and storage.

## Brother Mobile Connect for iOS or Android Devices

Use Brother Mobile Connect to print, scan, and copy, as well as manage your printer and customise its features.

The Brother Mobile Connect App puts the power of printing at your fingertips with a user-friendly interface that allows for simple operation and printer management from your smart phone. The App features easy onscreen navigation that allows you to wirelessly print, scan and copy from virtually anywhere and keep your home and home office running smoothly.

## iPrint&Scan Desktop Software

Simplified, one-touch shortcuts for easy desktop scanning.

The app lets you easily scan and organise your files from your Windows PC or Apple Mac computer, by acting as a central hub for your document scanning, printing and device maintenance. You can create 'one-touch' scanning workflows for your common scanning tasks and specify the type of file you want to save as well as the destination for your scan. Give each workflow a unique name and save them in your dashboard.

**Check the Brother Support website or visit [www.brother.co.za](http://www.brother.co.za) to see if your printer model supports our Printing and Scanning apps.**

Download our free apps on the App Store and Google Play.

# HOW TO IDENTIFY GENUINE BROTHER INK OR TONERS

Make sure your Brother product is genuine by using one of these three authentication methods.

## 1 Hologram Security Label

Authenticate by tilting the label against light to verify the Genuine Brother Hologram.

Ink Cartridge & Ink Bottle Hologram

Toner Cartridges & Drum Unit Hologram

Enter the ID number

Submit

Authenticity results will be displayed

5C7100L  
Is Authentic!

5C7A00L  
Is NOT Authentic!

You can visit the official authentication website at [go.brother/id](https://go.brother/id) to authenticate your product online. Enter your 7-digital ID number printed on your Brother hologram

## 2 Box Batch Number

Every box has the manufacture date printed on it. The date is in **YYMMDD** format. YY being the year, MM the month and DD the day that the product had been manufactured.

**If there is no manufacture date, consider it counterfeit.**

## 3 Check the Physical Toner

For optimum performance use only, **new Genuine Brother branded consumables** specially formulated to ensure top print quality.

Protective Cover showing Brother Logo

Brother Logo on Cartridge

Toner Model Number

Ensure Genuine Quality.  
Use only verified Brother Inks and Toners for top print performance.

All genuine Brother consumables are designed as part of an entire printing system, and tested to ensure optimum performance and component protection for your printer. Our extensive experience in the research and development of toner and ink technologies allows us to achieve tailored ink and toner compositions that adhere to the delicate specifications and operational design requirements of your Brother product.

**BROTHER ORIGINAL CONSUMABLES WORK IN PERFECT HARMONY WITH BROTHER PRINTERS**

Manufactured to the highest possible standards, Brother Original Ink and Toner Consumables guarantee effortless performance, every time. Brother genuine consumables are precision engineered and rigorously tested for optimum print quality.

**Warning! – not every marketplace offer is the real deal**
