Customise your labels with P-Touch Editor

P-Touch Editor software is included with P-Touch PC-connectable models.

Brother provides a complete label software package that includes label designing, editing and drawing tools, auto formats, clip art and symbols, barcode symbologies and more to help you produce virtually any label you can imagine. Use the convenient, pre-designed templates or create and store your own custom templates.

Design&Print 2 App for iOS or Android Devices

Design and print labels from your smartphone or tablet using Bluetooth technology.

The P-touch Design&Print 2 App enables you to design and print labels from your smartphone or tablet to the Brother P-touch PT-P300BT or PT-P710BT label printer using Bluetooth wireless technology. Easily personalise your labels using pre-designed templates or design and save your own labels using a wide variety of fonts, frames and symbols.

iPrint&Label App for iOS or Android Devices

Design and print labels from your smartphone or tablet using your Wireless network.

Brother iPrint&Label is convenient and easy to use. Just download the app and it will automatically search for supported devices on your wireless network. Quickly access and print pre-designed labels or create custom labels with graphics or photos.

Use with: PT-E560BTVP, PT-P900W, PT-P950NW, PT-P710BT, QL-810W, QL-820NWB, PT-D610BT and PT-D460BT.

Check the Brother Support website or visit www.brother.co.za to see if your label printer model supports our Design and Print apps.

Download our free apps on the App Store and Google Play.
